

## Wedge clamps

machinable

**Material:**

Channel aluminium profile.  
Wedge hardened steel.

**Version:**

Channel anodised.  
Wedge black oxidised.

**Sample order:**

K0038.08

**Note:**

Two workpieces can be held simultaneously with the wedge clamp. The jaws have extra material allowing them to be machined to conform to the shape of the workpiece. The compact design allows space-saving series clamping.

**Drawing reference:**

1) The locking plate is only used for machining the form, not for clamping the workpiece.

**KIPP Wedge clamps machinable**
