

Magnets deep pot

AlNiCo without fitting tolerance

Material:

Housing, steel.
Magnetic core AlNiCo.

Version:

Housing, electro zinc-plated.

Sample order:

K0546.01

Note:

Shielded system. Diameter "D" without fitting tolerance. Fastening possibilities are press-in, shrink-fitting or gluing.
Deep pot magnets can be shortened by the dimension "H1" with no loss of magnetic force.

Temperature range:

max. 450°C.

Drawing reference:

1) magnetic face
