The opening angle is max. 270°.

The loading values given for the hinges are non-binding reference values without consideration of safety factors and exclude any liability. The values given are for information purposes only and do not constitute a legally binding assurance of properties. These load values were determined under laboratory conditions. Each user must determine individually whether the hinge is suitable for the respective application. Different materials onto which the hinges are installed, the type of mounting, weather conditions and wear can influence the determined values.

Drawing reference:

- 1) Both rolled ends of long leaf are welded
- 2) Grease nipple
- 3) Fixed pin
