

Clamping levers, plastic with internal thread and safety function, thread insert stainless steel

Item description/product images

press to
engage
(safety function)

Description

Product description:

Clamping levers with safety function prevent changes in the locking point through accidental opening or closing. In the default position, the lever can be freely rotated and has no connection to the clamping point. The grip lever only engages when pushed down and the clamp can be loosened or tightened. A spring sets the lever automatically into the default position when released.

Material:

Grip lever and insert made from reinforced thermoplastic.
Screw stainless steel

Version:

Stainless steel bright.

Advantages:

Protection against accidental opening or closing.
Closed grip contour without protruding edges.

On request:

Special versions.
