

Protective caps Ø30 type I

Item description/product images

Description

Material:

Plastic TPE. Insert steel

Version:

Grey, similar to RAL 7042.

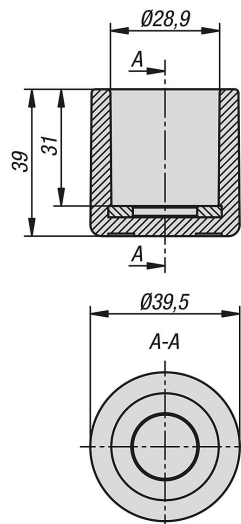

Note:

Suitable for round tubes and profile tubes with 30 mm OD.

The protective caps are used as end covers for round tubes and profile tubes. They are elastic and an integrated steel insert makes them puncture-proof.

Universally applicable. To protect against damage, scratches or injuries to/from the profile end, to cushion the impact in Karakuri/LCA applications or as a foot to prevent slipping on smooth floors.
