

Slide rails Ø30 type I

Item description/product images

Description

Material:
Plastic PVC-U.

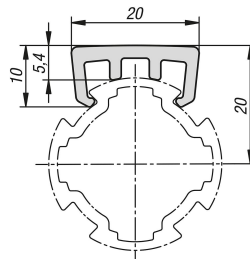

Version:
Grey, similar to RAL 7042.

Note:
Suitable for profile tubes with 30 mm OD.

Low-wear slide rail with low slide friction for easy handling of goods. Slide rails can also be used as cover protection, impact protection and guide rails.

The slide rails are clipped to Ø30 profile tubes without the need for tools.
