

Bracket with hook and loop fastener for screw mounting

Item description/product images

Description

Material:

Bracket fibreglass reinforced polyamide.

Hook and loop fastener polypropylene.

Version:

Bracket black, self-extinguishing as per UL94-V0.

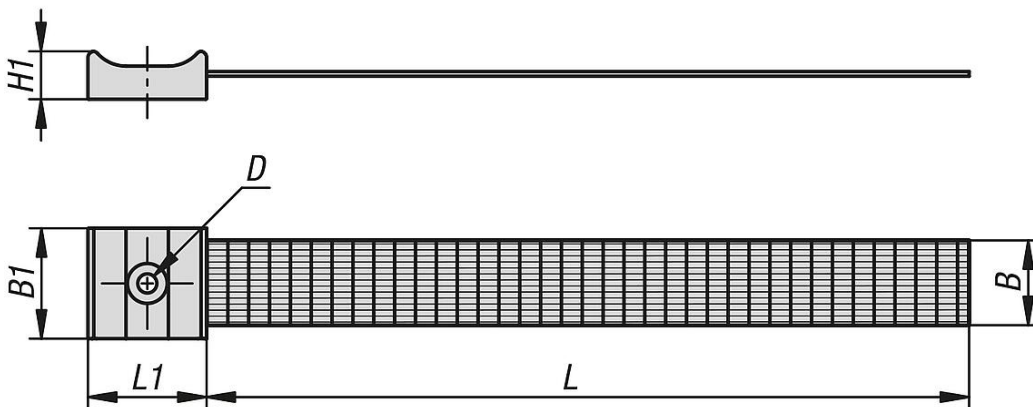

Hook and loop fastener black, self-extinguishing as per UL94-V2.

Note:

The hook and loop fastener bracket serves as an installation aid for the damage-free securing of wires, cables and hoses. The bracket is already fitted with a hook and loop strip. The hook and loop strip can be inserted and removed without tools. The hook and loop strip can be opened and fastened hundreds of times.

The hook and loop fastener bracket can be mounted using countersunk screws.
Hook and loop fastener bracket B=30 with cap screw.
