

# Lateral guides, plastic round with conical holding profile

## Item description/product images

### Description

**Material:**

Guide PE-UHMW.  
Sheet metal parts stainless steel.

**Version:**

Guide white  
Sheet metal bright.

**Note:**

The conical holding profile enables the lateral guides to be quickly and easily secured in the clamps K2295, K2298, K2301 and K2304.

These lateral guides are used to guide items on conveyor lines. The material used enables the guides to withstand heavy loads, exhibit low friction and reduce wear on the items being transported.

Through targeted product guidance on the conveyor system, the items are maintained on the conveyor belt during transportation.

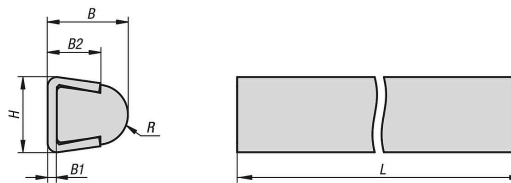

**On request:**

Other colours and sizes.

**Accessory:**

- Single clamp K2295.
- Single clamp K2298.
- Double clamp K2301.
- Double clamp K2304.
