

Deep groove ball bearings

stainless steel, DIN 626

Material:

Stainless steel 1.4125.

Version:

Bright.

Sample order:

nIm 23800-01-100802207

Note:

Sealed both sides with non-contact seals.

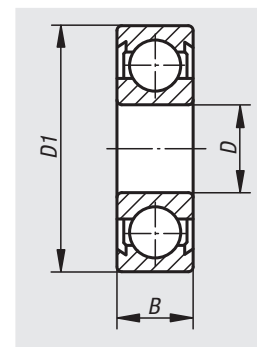

Used in food and pharmaceutical industries and special machine construction.

Good corrosion resistance.

On request:

Without sealing washer.

Without ball cage.
