

Grease guns, one-hand operation, similar to DIN 1283

**Material:**

Housing: steel.

Grease gun head: die-cast zinc.

Sample order:

nlm 97990-12-112500

Note:

DIN 1283 based one-hand grease gun for 400 g grease cartridges or 500 cm³ bulk grease. The pump piston is a precision fit in the cylinder. This prevents grease from seeping out. Quick venting by half a turn of the grease gun hose.

Changeover from high volume grease delivery to high pressure with a simple adjustment on the grip.

Supplied with straight nozzle tube and mouthpiece.

Order No.	Full volume cm ³	Filling options	Medium	Pressure bar
97990-12-112500	500	grease cartridge, bulk grease, filling device	Grease up to NLGI 2 at 20 °C	300 bar
